Function - Funktion

Bypass

In service - In Betrieb

Note : In the service position, the double-action valve at the inlet of 2-valve models must be fully open to prevent any hardness leakage.

Hinweis : In der Betriebsstellung muss das doppelwirkende Ventil am Einlass von 2-Ventil-Modellen vollständig geöffnet sein, um ein Austreten von Härte zu vermeiden.

For water, heating and plumbing professionals, Calcocid offers state-of-the-art technological solutions to effectively combat limescale and improve the quality of drinking water.

Für Wasser-, Heizungs- und Sanitäreanlagenprofis bietet Calcocid Lösungen der Spitzentechnologie, um wirksam Kalk zu bekämpfen und die Qualität des Trinkwassers zu verbessern.
